CONSTRUCTIONS

2023 has had good progress in all our three schools. While we were constructing the girls hostel block in Kakamega School, we also focused on putting more efforts on the two campuses of Bunyore and Nambale. We added two classrooms in Bunyore and one in Nambale school. We have constructed incinerators in the three campuses and now improved on waste management and littering since it is all burnt and consumed in the incinerators. We thank our donors for making it happen in 2023 as well.
